

Extreme Alpine Dome

Experience the excitement of two alpine simulators under the blue sky of this futuristic dome.

Alpine Ski Simulator

Skiers experience the "rush" of speeding down the slopes with the wind whistling past them as they ski through the gates of challenging race courses. Three different courses test the skills of beginner, intermediate and expert skiers.

Snowboard Simulator

Participants freeboard or gate race while performing numerous air tricks to the sound of rock and alternative music. Two downhill courses and two levels of difficulty provide the snowboarder with four challenging options.

Simulator Features:

- 50 inch plasma TV screens with sharp animation video provide the contestants with a dynamic view of the race courses
- Audio effects create an image of realism as the racers streak down the slopes

Promotional Opportunities:

Exceptional opportunities for businesses to place their ads at prime locations around the dome.

Space requirements: 25 foot wide by 25 foot deep
