

Virtual NASCAR Simulator

Prepare for action! Participants are strapped into an official full size retired NASCAR vehicle that has been outfitted with simulation video and motion equipment. Drivers feel the wind in their face as they grip the wheel through banking turns with 600 horsepower at their command! Drivers start in last position and try to move up through a field of today's premier NASCAR drivers. Typical race time is 3-4 minutes.

Virtual NASCAR Features:

- Outstanding simulation: The drivers actually use the steering wheel, brake pedal and accelerator on their race to the finish
- Official race venues: The races take place at official NASCAR tracks such as Daytona and Bristol
- Crowd Excitement: Audience TV monitor shows the driver's actual position in the race field

Promotional Opportunities:

Large ads can be placed on the car and at strategic locations outside the simulator for viewing by the attendees waiting in line.

Space requirements: 20 foot wide by 30 foot long
